Automatic WISDOMSHOW WDS-750 6800W BGA soldering station

Product ID: 22281

Price: **12185.00 EUR**

Product weight: **130.00 kg**

Description:

Automatic WISDOMSHOW WDS-750 6800W BGA soldering station - designed for high performance electronics. It is a professional and modern solution for disassembly and assembly of BGA, uBGA, CBGA, CCGA, CSP, QFN, MLF, PGA systems and work with large multilayer PCBs, for consumer electronics, medical, telecommunications, military, automotive and industrial, and prefabrication services . The high power of the station and the efficient cooling system ensure efficient operation and reduce the time of high temperature impact on the board to a minimum. The device was designed for repairing motherboards for personal and industrial computers, graphic cards, notebooks, consoles, mobile phones, modules and car controllers made in lead-acid and lead-free soldering technology. WDS-750 soldering station allows you to control and track all device parameters on a regular basis on a touch screen LCD.
