Data Recovery from mobile phone or tablet

Product ID: 21684

Price: 449.00 EUR

Product weight: 0.20 kg

Description:

Data Recovery from mobile phone or tablet is a service consisting in reading and analyzing data - both from working and damaged devices. Offered to people and companies who lost all data they collected inside a phone, tablet and want to recover them all. No meter for us if data was lost as a result of mechanical damage (telephone flooded, broken or crushed, ie. after the fall) or logically demaged (accidentally erased data, system crash, locked by carrier).

NOTE: We can analyze the data readings for court witness with 5 world-class independent fully licensed investigative tools, ie UFED Cellebrite Inseyets PA, MSAB XAMN / XRY, Oxygen Detecive Forensic, MobilEdit Forensic ULTRA, GMDSoft MD-RED. Thanks to this, you can be sure that no data has been omitted in your report!
