DFU Pico Dongle (PWNED, Auto-DFU)

Product ID: 23280

Price: **89.00 EUR**

Product weight: **0.25 kg**

Description:

DFU Pico Dongle is a hardware add-on for the checkm8 exploit, designed for data extraction from supported iPhone and iPad devices, operating in both pwned DFU and Auto-DFU modes. Based on the Raspberry Pi Pico, the device simplifies the process of switching an iPhone or iPad into DFU mode and executing the initial steps of the exploit. To unlock or extract data, a custom firmware is required, which is included free of charge with Elcomsoft iOS Forensic Toolkit or availabel for free at Github.
