Flux TS81 1000 ml - Bottle

Product ID: 23445

Price: 49.00 EUR

Product weight: 1.50 kg

Description:

Flux TS81 1000 ml - Bottle

Flux TS81 is a highly active preparation designed for soldering components made of various types of steel, including acid-resistant steel and chromium-nickel alloys. The product is characterized by a viscosity of 347.7 cP and a density of 1.16 g/cm?. According to chemical classification, it meets the ISO 9454 type 3314 and J-STD-004 INH1 standards. The pH value for a 1% aqueous solution is 1.2, which confirms the high chemical activity of the substance. Residues after the soldering process are water-soluble and require washing to prevent corrosion.
