

Flux TS81 50 ml - Bottle with a brush

Product ID: 23442

Price: 4.00 EUR

Product weight: 0.10 kg

Description:

Flux TS81 50 ml - Bottle with a brush

Flux TS81 is a highly active preparation designed for soldering components made of various types of steel, including acid-resistant steel and chromium-nickel alloys. The product is characterized by a viscosity of 347.7 cP and a density of 1.16 g/cm?. According to chemical classification, it meets the ISO 9454 type 3314 and J-STD-004 INH1 standards. The pH value for a 1% aqueous solution is 1.2, which confirms the high chemical activity of the substance. Residues after the soldering process are water-soluble and require washing to prevent corrosion.
