HCU + DC Phoenix Dongle

Product ID: 22199

Price: **119.00 EUR**

Product weight: **0.10 kg**

Description:

HCU + DC Phoenix Dongle is a USB key that allows you to use the activation of HCU Client and DC Phoenix without the need to renew the license, ie time constraints. Thanks to the software, we have the possibility of full service by Huawei phones (HCU Client) as well as unlimited repairs of dead Huawei phones (eg Honor 7, Mate 7, Ascend) without undressing and doing any mechanical activities. From now on, repairing bootloop phones that hang on fastboot is not a problem - no matter if the device has a locked bootloader or is locked in FRP (DC Phoenix) mode.
