HP Silicone Thermal Conductive Paste 7 g - Tube

Product ID: 23454

Price: 3.00 EUR

Product weight: 0.10 kg

Description:

HP Silicone Thermal Conductive Paste 7 g - Tube

HP silicone paste is a thermal conductive preparation with a thermal conductivity of 1.5 W/mK, designed for efficient heat dissipation from electronic components. The product is characterized by its white color and a density of 2.1 g/cm? at 20°C. The substance maintains its operating properties over a wide temperature range from -50°C to 250°C. The preparation does not conduct electricity, which eliminates the risk of electrical damage, and demonstrates resistance to the effects of acids, bases, salts, sulfur dioxide, and ammonia.
