LCD OCTA JIG TBK928 Separato

Product ID: 21883

Price: **149.00 EUR**

Product weight: **6.00 kg**

Description:

LCD OCTA JIG TBK928 Separator is a compatible device with Samsung Service OCTA Disassembly Upper JIG bracket for separating the corpses. Controlled by manometric screw allows the LCD panel to be separated from the housing body on Samsung and other phones. The device uses strong 55mm mammals and a handle in which the body of the housing is attached. Two mammals have the ability to adjust left-right. The separation process should be supported by a dispersant that dissolves the adhesive on which the display is mounted.
