Mission Darkness RF Shielded Phone & Tablet Locker

Product ID: 23295

Product weight: 1.00 kg

Description:

Mission Darkness RF Shielded Phone & Tablet Locker is a heavy-duty metal cabinet system with 24 individually shielded lockable compartments (20 cell phone–size compartments and 4 tablet–size compartments). The locker is designed to shield portable electronic devices from RF signals while keeping them securely locked inside. Each compartment is a fully enclosed independent metal box, meaning that when one locker door is opened, it only introduces signals into that single compartment—the rest remain shielded and secure.
