MT NOR Adapter for MediaTek 2503DV SoC

Product ID: 22958

Price: **209.00 EUR**

Product weight: **0.10 kg**

Description:

MT NOR Adapter for MediaTek 2503DV SoC is a programmer in the form of a USB key that allows access to data contained in the internal NOR memory embedded in MediaTEK (MTK) 2503DV SoC. These processors (SoC) are most often found in budget phones, the so-called Features phones, GPS trackers and smartwatches. Due to the lack of an SPI or I2C access protocol, the only possibility of accessing the data after a device failure (e.g. breaking the motherboard to prevent access) was to perform a chip SWAP to a functional device. Our adapter revolutionizes data recovery from such cases - just after ChipOFF, place the processor in the adapter and connect the adapter to the USB to enable data reading.
