MT NOR Adapter for MediaTek 6260DA SoC

Product ID: 23435

Price: 199.00 EUR

Product weight: 0.10 kg

Description:

MT NOR Adapter for MediaTek 6260DA SoC is a programmer in the form of a USB key that allows access to data contained in the internal NOR memory embedded in MediaTEK (MTK) 6260DA SoC. These processors (SoC) are most often found in budget phones, the so-called Features phones as well as many smartwatches and GPS tracker. Due to the lack of an SPI or I2C access protocol, the only possibility of accessing the data after a device failure (e.g. breaking the motherboard to prevent access) was to perform a chip SWAP to a functional device. Our adapter revolutionizes data recovery from such cases - just after ChipOFF, place the processor in the adapter and connect the adapter to the USB to enable data reading.
