MT NOR Adapter for MediaTek 6261DA / 6261MA SoC

Product ID: 22557

Price: 199.00 EUR

Product weight: 0.10 kg

Description:

MT NOR Adapter for MediaTek 6261DA / 6261MA SoC is a programmer in the form of a USB key that allows access to data contained in the internal NOR memory embedded in MediaTEK (MTK) 6261DA / 6261MA SoC. These processors (SoC) are most often found in budget phones, the so-called Features phones like Nokia 106 TA 1114, Nokia 108 RM 944, Nokia 105-2 RM 1133, Nokia 105 TA 1034 as well as many smartwatches. Due to the lack of an SPI or I2C access protocol, the only possibility of accessing the data after a device failure (e.g. breaking the motherboard to prevent access) was to perform a chip SWAP to a functional device. Our adapter revolutionizes data recovery from such cases - just after ChipOFF, place the processor in the adapter and connect the adapter to the USB to enable data reading.
