Product ID: 22767

Price: 2295.00 EUR

Product weight: 0.00 kg

Description:

Passware Device Decryption Add-on - Annual License is an advanced digital forensics tool designed to recover passwords, extract recovery keys, and unlock and decrypt selected devices and data storage media protected by hardware-based encryption mechanisms. The add-on extends the capabilities of Passware Kit Forensic with specialized features for analyzing and recovering access to devices whose security mechanisms rely on technologies such as TPM, firmware TPM (fTPM), Apple T2 chips, and hardware-based drive encryption.
Note: Passware Device Decryption Add-on is available for law enforcement and other types of government organizations and private companies with justifiable business needs, such as forensic firms or corporate investigation teams.
