Reading data/image UFS in binary format (Chip-Off)

Product ID: 21724

Price: **219.00 EUR**

Product weight: **0.10 kg**

Description:

Reading data/image UFS in binary format (Chip-Off) is a service of reading data/image from UFS memory and deliver it to client. For reading we are using Chip-Off teqnique and specialistic hardware. This service is mainly dedicated to newest Samsung devices as Samsung S6, S6 Edge or Note 5 which uses UFS type of memory but they are not encrypted by default. This is only way to read and get back data in case phone is totally damaged/not working.
