Regen-i RG-250 Glass Cover Disassembly Jig

Product ID: 21922

Price: **1119.00 EUR**

Product weight: **16.00 kg**

Description:

Regen-i RG-250 Glass Cover Disassembly Jig is a semi-automatic precision heater for phones and tablets, allowing easy and seamless separation of screens from the body as well as rear flip flops/glass cover from phones and tablets. The separator enables controlled heating of the device to a safe temperature of 80C (max. 3C / 1s) and safe and controlled separation of the damaged glass from the frame / housing with strong grippers and screws. The position of the mammals can be adjusted in the X and Y axes. The screw supports the suction power after the heating process.
