SC NOR Adapter for Spreadtrum 6531E SoC

Product ID: 22594

Price: **199.00 EUR**

Product weight: **1.00 kg**

Description:

SC NOR Adapter for Spreadtrum 6531E SoC is a programmer in the form of a USB key that allows access to data contained in the internal NOR memory embedded in MediaTEK (MTK) SC6531E SoC. These processors (SoC) are most often found in budget phones, the so-called Features phones like Nokia 105 (2019/2023) TA-1174/TA-1557, as well as many smartwatches. Due to the lack of an SPI or I2C access protocol, the only possibility of accessing the data after a device failure (e.g. breaking the motherboard to prevent access) was to perform a chip SWAP to a functional device. Our adapter revolutionizes data recovery from such cases - just after ChipOFF, place the processor in the adapter and connect the adapter to the USB to enable data reading.
