UltraBlock USB 3.2 Forensic card reader

Product ID: 23499

Price: 99.00 EUR

Product weight: 0.40 kg

Description:

UltraBlock USB 3.2 Forensic card reader The UltraBlock USB 3.2 Forensic Card Reader and Writer is a multimedia card reader equipped with a physical operation mode switch. The unit enables secure, hardware-blocked forensic acquisition of data in Read-Only mode, as well as media writing and testing in Read-Write mode. This card reader is the same module integrated into FRED forensic workstations. It connects to host computers via an integrated USB Type-A cable compatible with USB 3.2, 2.0, and 1.x interfaces. The reader supports high-capacity card standards, including SDHC and SDXC.
