Universal PCB board holder K23

Product ID: 22368

Price: **32.00 EUR**

Product weight: **0.80 kg**

Description:

Universal PCB board holder K23 is an irreplaceable tool for repairing the motherboard of a mobile phone, ensuring the simultaneous maintenance of two set positions of the boards. Universal chuck made of thick metal plate, which is equipped with heat dissipation holes. It is resistant to high temperatures and prevents deformation, which will also protect electronic components from damage. Perfectly suited for accurate soldering with a hot air soldering station when carrying out IC, eMMC / Nand / CPU Repair replacement.
