USB Charging IC - NXP 1610A3 U4500 (tristar)

Product ID: 21953

Price: **7.00 EUR**

Product weight: **0.01 kg**

Description:

USB Charging IC - NXP 1610A3 U4500 (tristar) is a BGA chip that communicates with the charger before it can charge the phone and often causes slow or no charge. Damaged most often when connected to an original APple charger. The NXP 1610A3 is described in the iPhone SE/6S/6S+ as U4500. You can also use this IC as replacement for 1610A1 and 1610A2
