WDS650 2xHR + 6500W quartz BGA rework station

Product ID: 22112

Price: **6495.00 EUR**

Product weight: **108.00 kg**

Description:

WDS650 2xHR + 6500W quartz BGA rework station is an integrated system for repairing and replacing BGA, uBGA, CBGA, CCGA, CSP, QFN, MLF, PGA circuits. The WDS-650 model is a very efficient (total power of 6500W), a professional and modern solution for disassembly and assembly of integrated circuits for consumer electronics, medical, telecommunications, military, automotive and industrial services. The device was designed for repairing motherboards for personal and industrial computers, graphic cards, notebooks, consoles, mobile phones, modules and car controllers made in lead-acid and lead-free soldering technology. Especially recommended for working with large multilayer PCBs. The very high power and efficient cooling system ensures efficient operation and reduces the time of high temperature impact on the board to a minimum.
