YKUSH XS Yepkit USB Switchable Hub

Product ID: 22648

Price: 59.00 EUR

Product weight: 0.20 kg

Description:

YKUSH XS Yepkit USB Switchable Hub is a switch a USB device ON/OFF remotely from software using YKUSH XS. YKUSH XS is a single downstream port USB hub which can be commanded to switch ON/OFF the downstream port, effectively disconnecting/connecting the USB device connected to the YKUSH XS. The control commands are issued from the USB host, typically a PC to which the YKUSH XS is connected. We provide an open source control software which can be used out of the box to control the YKUSH XS. This software can also be used as a reference or starting point for integration into other applications or custom developments.
